

# Machine Learning and Data Mining

Introduction, seminar

---

Maxim Borisyak

September 1, 2016

National Research University  
Higher School of Economics

# Requirements

---

Please, make sure that for the next seminars you will have installed on your computer:

- Python;
- Jupyter Notebook;
- numpy stack:
  - numpy;
  - scipy;
  - scikit learn.

Please, make sure that for the next seminars you will have downloaded on your computer:

- sample datasets:
  - Titanic or similar;
  - MNIST;
- later, we will need:
  - CIFAR-like dataset (optionally, as harder version of MNIST);
  - MovieLens, Netflix prize or similar.
